More notes for your old piano @ TYNESIDE PIANO COMPANY of ASHINGTON

Has your piano reached retirement age, holding back your practice regime or simply hampering your cultural lifestyle credentials? - if so, there's never been a better time to invest in a new Yamaha piano at TYNESIDE PIANO COMPANY thanks to Yamaha's fantastic new guaranteed part-exchange scheme.

For a limited period only, the pioneering Yamaha Piano Upgrade Scheme available at TYNESIDE PIANO COMPANY based at ASHINGTON sees customers with older acoustic or digital pianos and even keyboards being offered a range of guaranteed part-exchange prices. Adding up to £2,500 to the value of your old piano or even a dusty keyboard stuck in the loft could turn the dream of owning an elegantly crafted new Yamaha into a reality.

The offer applies to all new Yamaha models from entry level uprights through to silent models, grand pianos and the award winning range of Disklaviers.

Simplicity itself, TYNESIDE PIANO COMPANY are ready and waiting to offer you a fair market value against a new model with no catches.

Yamaha pianos are the choice of many of the world's most acclaimed pianists, composers, conservatoires and concert halls and owning one for yourself just got easier, but hurry before the offer expires and January 2011 sees an increase in VAT to 20%.

The company state that the Upgrade programme makes owning a new Yamaha piano even more affordable, TYNESIDE PIANO COMPANY of ASHINGTON told us, "We know that many people would like to own a new Yamaha instrument and a large number of those have older and below par pianos. A poor instrument means a poor performance so this scheme is designed to help customers acquire a Yamaha instrument with the minimum of financial pain."
